Data Sheet

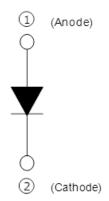

# HE8807SG

# GaAlAs Infrared Emitting Diodes

#### **Outline**

### **Internal Circuit**

#### **Features**

\* 45° ± 5°

• Peak wavelength: 880nm typ

(Unit: mm)

- High output, high efficiency
- Narrow spectral width
- Wide radiation directivity
- High reliability

### **Application**

- Encoder
- Photoelectric sensor
- Automatic apparatus
- Metering equipment

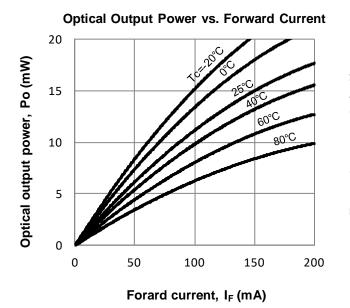

# **Absolute Maximum Ratings (Tc=25°C)**

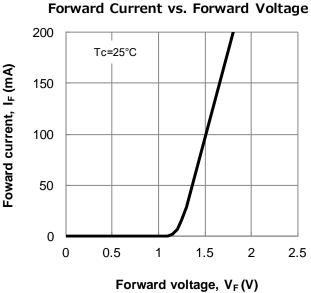

Item	Symbol	Ratings	Unit
Forward current	I <sub>F</sub>	200	mA
Reverse voltage	V <sub>R</sub>	3	V
Operating temperature	Topr	-20 ~ 85	°C
Storage temperature	Tstg	-40 ~ 100	°C

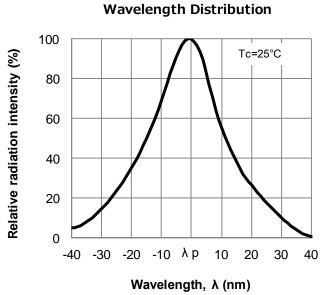

# Optical and Electrical Characteristics (Tc=25°C)

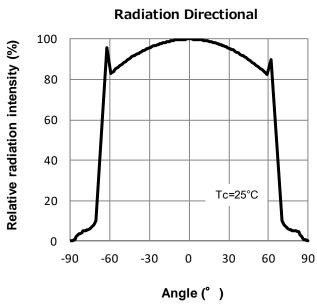

Item	Symbol	Min	Тур	Max	Unit	Test Condition
Optical output power	Ро	10	15	-	mW	I <sub>F</sub> =150mA
Peak wavelength	λр	800	880	900	nm	I <sub>F</sub> =150mA
Spectral width	Δλ	-	30	60	nm	I <sub>F</sub> =150mA
Forward voltage	V <sub>F</sub>	-	1.7	2.3	V	I <sub>F</sub> =150mA
Reverse current	I <sub>R</sub>	-	-	100	μA	V <sub>R</sub> =3V
Capacitance	Ct	-	10	-	pF	V <sub>R</sub> =0V, f=1MHz
Rise time	tr	-	20	-	ns	I <sub>F</sub> =50mA
Fall time	tf	-	20	-	ns	I <sub>F</sub> =50mA

## **Typical Characteristic Curves**

#### **Cautions**

- 1.Ushio Inc.(Ushio) neither warrants nor grants licenses of any our lights or any third party's patent, copyright, trademark, or other intellectual property rights for information contained in this document, Ushio bears no responsibility for problems that may arise with third party's right, including intellectual property rights, in connection with use of the information contained in this document.
- 2. Products and product specifications may be subject to change without notice. Confirm that you have received the latest product standards or specifications before final design, purchase or use.
- 3. Ushio makes every attempt to ensure that its products are of high quality and reliability. However, contact our sales office before using the product in an application that demands especially high quality and reliability or where its failure or malfunction may directly threaten human life or cause risk of bodily injury, such as aerospace, aeronautics, nuclear power, combustion control, transportation, traffic safety equipment or medical equipment for life support.
- 4. Design your application so that the products is used within the ranges guaranteed by Ushio. particularly for maximum rating, operating supply voltage range, heat radiation characteristics, installation conditions and other characteristics. Ushio bears no responsibility for failure or damage when used beyond the guaranteed ranges. Even within the guaranteed ranges, consider normally foreseeable failure rates or failure modes in semiconductor devices and employ systemic measures such as fail-safes, so that the equipment incorporating Ushio product does not cause bodily injury, fire or other consequential damage due to operation of the Ushio product.
- 5. This product is not designed to be radiation resistant.
- 6. No one is permitted to reproduce or duplicate, in any form, the whole or part of this document without written approval from Ushio.
- 7. Contact our sales office for any questions regarding this document or Ushio products.

This product contains gallium arsenide (GaAs), which may seriously endanger your health even at very low doses. Please avoid treatment which may create GaAs powder or gas, such as disassembly or performing chemical experiments, when you handle the product. When disposing of the product, please follow the laws of your country and separate it from other waste such as industrial waste and household garbage.

### **Important Notice**

Performance figures, data and any illustrative material provided in this data sheet are typical and must be specifically confirmed in writing by Ushio before they become applicable to any particular order or contract. In accordance with the Ushio policy of continuous improvement specifications may change without notice. Further details are available from any Ushio sales representative.

Caution - use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

#### **Disclaimer**

Product specifications and data shown in this product catalog are subject to change without notice for the purposes of improving product performance, reliability, design, or otherwise.

Product data and parameters in this catalog are typical values based on reasonably up-to-date measurements.

Product data and parameters may vary by user application and over time.

Products shown in this catalog are intended to be used for general electronic equipment. Products are not guaranteed for applications where product malfunction or failure may cause personal injury or death, including but not limited to life-supporting / saving devices, medical devices, safety devices, airplanes, aerospace equipment, automobiles, traffic control systems, and nuclear reactor control systems.
