Independent Auditor's Report

The Board of Directors
USHIO INC.

We have audited the accompanying consolidated financial statements of USHIO INC. and its consolidated subsidiaries, which comprise the consolidated balance sheet as at March 31, 2018, and the consolidated statements of income, comprehensive income, changes in net assets, and cash flows for the year then ended and a summary of significant accounting policies and other explanatory information, all expressed in Japanese yen.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for designing and operating such internal control as management determines is necessary to enable the preparation and fair presentation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. The purpose of an audit of the consolidated financial statements is not to express an opinion on the effectiveness of the entity's internal control, but in making these risk assessments the auditor considers internal controls relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of USHIO INC. and its consolidated subsidiaries as at March 31, 2018, and their consolidated financial performance and cash flows for the year then ended in conformity with accounting principles generally accepted in Japan.

Convenience Translation

We have reviewed the translation of these consolidated financial statements into U.S. dollars, presented for the convenience of readers, and, in our opinion, the accompanying consolidated financial statements have been properly translated on the basis described in Note 2.

Notes to Consolidated Financial Statements

1. Summary of Significant Accounting Policies

(a) Basis for presentation

USHIO INC. (the "Company") and its domestic subsidiaries maintain their accounting records and prepare their financial statements in accordance with accounting principles generally accepted in Japan, and its overseas subsidiaries maintain their books of account in conformity with those in their respective countries of domicile.

The accompanying consolidated financial statements are prepared on the basis of accounting principles generally accepted in Japan, which are different in certain respects with regard to the application and disclosure requirements from International Financial Reporting Standards (IFRS), and have been compiled from the consolidated financial statements prepared by the Company as required by the Financial Instruments and Exchange Act of Japan.

The accompanying consolidated financial statements of the Company and its consolidated subsidiaries (collectively, the "Group") are prepared using the accounts of foreign consolidated subsidiaries prepared in accordance with any of the accounting principles generally accepted in Japan, IFRS or accounting principles generally accepted in the United States as adjusted for certain items.

For the purposes of these documents, certain reclassifications have been made to present the accompanying consolidated financial statements in a format that is familiar to readers outside Japan. In addition, certain reclassifications have been made to the prior year's consolidated financial statements to bring them into conformity with the current year's presentation.

As permitted by the regulations under the Financial Instruments and Exchange Act of Japan, amounts of less than one million yen have been omitted. As a result, the totals shown in the accompanying consolidated financial statements (in both yen and U.S. dollars) do not necessarily agree with the sum of the individual amounts.

(b) Principles of consolidation and accounting for investments in associates

The accompanying consolidated financial statements include the accounts of the Company and all subsidiaries over which it exerts substantial control either through majority ownership of voting shares and/or other means. As of March 31, 2018, the number of consolidated subsidiaries and associates accounted for using the equity method were 58 and 1 (55 and 1 in 2017), respectively.

The changes in the scope of consolidation for the year ended March 31, 2018 are as follows:
Due to new establishment, Ushio Entertainment Holdings, Inc., Ushio Asia Trading Limited and CHRISTIE TRADE DEVELOPMENT (SHANGHAI) CO., LTD. were included in the consolidation scope.
Due to acquisition of additional shares, Zylight LLC was included in the consolidation scope and excluded from the scope of the equity method.
Due to sale of shares, Dipl.-Ing. Reinhold Eggers GmbH was excluded from the consolidation scope.
Due to liquidation, XTREME technologies GmbH was excluded from the consolidation scope.

The changes in the scope of equity method for the year ended March 31, 2018 are as follows:
Due to increased materiality, KA Imaging Inc. was included in the scope of the equity method.
Due to acquisition of additional shares, Zylight LLC was included in the consolidation scope and excluded from the scope of the equity method.

The associate that is not accounted for using the equity method (Hokkaido Saladpaprika Co., Ltd.) is excluded from the scope of the equity method since such exclusion has an immaterial effect on the Company’s consolidated financial statements in terms of profit or loss (amount corresponding to the Company’s equity position), retained earnings (amount corresponding to the Company’s equity position) and others, and the entity, as a whole, is not material.

The closing date of a consolidated subsidiary, USHIO (SUZHOU) CO., LTD., and 11 other consolidated subsidiaries (11 in 2017) is December 31. Their financial accounts are consolidated using their financial statements as of the parent’s fiscal year-end, and are prepared solely for consolidation purposes. All significant intercompany balances and transactions have been eliminated in the consolidation.

The closing dates of certain entities accounted for using the equity method are different from the consolidated balance sheet date. In preparing the consolidated financial statements, the Company uses the financial statements pertaining to each company’s fiscal year.

Shares of associates (companies over which the Company exercises significant influence) are stated at cost plus equity in their undistributed earnings or losses. Consolidated profit includes the Company's equity in the current profits or losses of such companies after the elimination of unrealized intercompany profits.

All assets and liabilities of the consolidated subsidiaries and associates are revalued on acquisition, if applicable. Goodwill is amortized in equal portions over the period in which it is deemed to be valuable.

(c) Foreign currency translation

The balance sheet accounts of the foreign consolidated subsidiaries are translated into yen at the rates of exchange in effect at the balance sheet date, except for the components of net assets excluding non-controlling interests which are translated at their historical exchange rates. Revenue and expense accounts are translated at the average rate of exchange in effect during the year. Differences arising from the translation are presented as foreign currency translation adjustment and non-controlling interests in the consolidated financial statements.

All monetary assets and liabilities of the Company and its domestic consolidated subsidiaries denominated in foreign currencies are translated at the current exchange rates in effect at each balance sheet date. Gains or losses resulting from the settlement of these items are credited or charged to income.

(d) Cash equivalents

All highly liquid investments, generally with a maturity of three months or less when purchased, which are readily convertible into known amounts of cash and are so near maturity that they represent only an insignificant risk of any change in value attributable to changes in interest rates, are considered cash equivalents.

(e) Securities and investment securities

Trading securities are carried at fair value, and held-to-maturity securities are carried at amortized cost. Marketable securities classified as available-for-sale securities are carried at fair value with any valuation difference, net of the applicable income taxes, included directly in net assets. Non-marketable securities classified as available-for-sale securities are carried at cost. The cost of securities sold is determined by the moving-average method. In cases where available-for-sale securities have declined significantly in value and such devaluation is not deemed temporary, those securities are written down to the fair value and the resulting losses are included in net profit or loss for the period.

(f) Inventories

Merchandise and finished goods, and work in process are stated principally at the lower of cost or market, cost being determined by the average method for the Company and its domestic consolidated subsidiaries and at the lower of cost or market, cost being determined by the first-in, first-out method for overseas consolidated subsidiaries.

Raw materials are principally stated at the lower of cost or market, cost being determined by the moving-average method for the Company and its domestic consolidated subsidiaries and at the lower of cost or market, cost being determined by the first-in, first-out method for overseas consolidated subsidiaries.

(g) Depreciation (excluding leased assets)

Depreciation of property, plant and equipment is calculated principally by the straight-line method based on the estimated useful lives of the respective assets.

The depreciation period ranges from 2 years to 60 years for buildings and structures and 3 years to 12 years for machinery and equipment, and vehicles. The others are generally depreciated from 2 years to 15 years.

Intangible assets are amortized by the straight-line method.
In addition, an estimated useful period for amortization for software for internal use is 5 years.

(h) Leased assets

Leased assets related to finance lease transactions that transfer ownership mainly consist of software of the Company’s consolidated subsidiaries and are depreciated by the same approach as the depreciation method applied to non-current assets.

Leased assets related to finance lease transactions that do not transfer ownership mainly consist of production facilities (machinery) and inspection instruments (tools and equipment) of the Company’s consolidated subsidiaries and are depreciated by the straight-line method over the lease period that is deemed as the useful life, assuming no residual value.

(i) Research and development expenses

Research and development expenses are charged to income when incurred.

(j) Allowance for doubtful accounts

The allowance for doubtful accounts is provided at an amount sufficient to cover possible losses on the collection of receivables, and has been determined based on historical experience with write-offs plus an estimated amount for probable specific doubtful accounts after a review of the collectability of individual receivables.

(k) Provision for bonuses

The provision for bonuses represents the amounts for future payments of employees' bonuses. The provision is recognized in the amount that is expected to be paid.

(l) Provision for directors' retirement benefits

Some of the consolidated subsidiaries recognize provision for retirement benefits for directors, corporate auditors and others in the full amount that would have to be paid if all the directors and corporate auditors resigned at the balance sheet date based on their internal regulations.

(m) Provision for directors' stock payment

Provision for directors' stock payment represents the amounts for future payments of the Company's stock to directors. The provision is recognized based on the amount that is expected to be paid, which is determined using points allocated to each director as prescribed in the share granting rules.

(n) Provision for product warranties

Provision for product warranties is recognized for expenses for after-sales service and free repairs for products sold by the Company and its consolidated subsidiaries in the estimated amount to be incurred in the future.

(o) Provision for loss on orders received

To provide for future losses on contracted orders received, the Company recognizes a provision for loss on orders received equal to the amount of losses it anticipates after the year-end. Such a provision is recognized when losses on orders received are probable and reasonably estimated.

(p) Retirement benefits

(i) Method for attribution of estimated retirement benefits to periods

In the calculation of retirement benefit obligations, the expected retirement benefits are attributed to the period up to the end of the current fiscal year based on the straight-line method.

(ii) Accounting method for actuarial gains or losses and past service costs

Past service costs are amortized as incurred by the straight-line method over a certain hiperiod (15 years) that is within the average remaining years of service of the eligible employees when the gains or losses occur.

Actuarial gains or losses are amortized in the year following the year in which the gains or losses are recognized by the straight-line method over a certain period (15 years) that is within the average remaining years of service of the eligible employees when the gains or losses occur.

(q) Derivatives and hedge accounting

The Company and certain consolidated subsidiaries have entered into currency derivative transactions and interest rate swap transactions primarily in order to manage certain risks arising from adverse fluctuations in foreign currency exchange rates and interest rates.

In accordance with the accounting standard for financial instruments, derivative financial instruments are carried at fair value with any changes in unrealized gains or losses charged or credited to income, except for those that meet the criteria for deferral hedge accounting under which unrealized gains or losses are deferred as assets or liabilities. Certain domestic consolidated subsidiaries apply the assignment for the currency derivative transactions that qualify for the method to the hedges of foreign currency risk that is qualified for the treatment.

Hedging instruments and hedged items used by the Company and certain consolidated subsidiaries are as follows:

Hedging instruments:	Forward foreign exchange contracts and interest rate swaps
Hedged items:	Receivables and payables denominated in foreign currencies, forecasted transactions denominated in foreign currencies, securities denominated in foreign currencies and loans payable

The Company and its consolidated subsidiaries hedge the risks of fluctuation in foreign currencies and interest rates in accordance with internal management rules on financial market risk and derivative transactions.

The hedge effectiveness is assessed by comparing the cumulative changes in fair value or cash flows of the hedged items and those of the hedging instruments during the period from the inception of the hedge to the time of determining the effectiveness, and based on the respective amount of changes.

(r) Deferred income taxes

Deferred tax assets and liabilities are recognized in the consolidated financial statements with respect to the differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts for income tax purposes, and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse.

(s) Accounting standards issued but not yet applied

Revenue from Contracts with Customers (Accounting Standard Update ("ASU") No. 2014-09, issued on May 28, 2014)

(1)Overview

ASU No. 2014-09 provides a comprehensive standard for revenue recognition which replaces the existing revenue recognition guidance under U.S. generally accepted accounting principles (GAAP) issued by the Financial Accounting Standard Board (FASB). The core principle of this standard is that an entity should recognize revenue when the entity transfers promised goods or services to customers at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The adoption of this standard will have an impact on certain overseas consolidated subsidiaries that adopt U.S. GAAP.

(2)Date of application

ASU 2014-09 will be applied for fiscal years beginning on or after April 1, 2019.

(3)Impact of application

The impact of this standard on the consolidated financial statements is currently being evaluated.

Accounting Standard for Revenue Recognition (Accounting Standards Board of Japan (ASBJ) Statement No. 29, issued on March 30, 2018)
Implementation Guidance on Accounting Standard for Revenue Recognition (ASBJ Guidance No. 30, issued on March 30, 2018)

(1)Overview

International Accounting Standards Board (IASB) and FASB jointly developed a comprehensive accounting standard for revenue recognition and issued "Revenue from Contracts with Customers" (IFRS No. 15, issued by IASB and Topic 606 issued by FASB) in May 2014. Considering the situation that IFRS No. 15 has become applicable from the fiscal year beginning on and after January 1, 2018 and Topic 606 from the fiscal year beginning after December 15, 2017, ASBJ developed a comprehensive accounting standard for revenue recognition and issued it together with implementation guidance.
ASBJ's basic policy in developing the accounting standard for revenue recognition was to establish accounting standards as a starting point to adopt basic principles of IFRS No. 15 from the viewpoint of comparability of financial statements, which is one of the benefits of maintaining consistency with IFRS No. 15, and to add alternative treatments to the extent not to impair comparability in cases where previous practices and others in Japan should be considered.

(2)Date of application

These standards will be applied from the start of the fiscal year beginning on or after April 1, 2021.

(3)Impact of application

The impact of applying the "Accounting Standard for Revenue Recognition," etc. on the consolidated financial statements is currently being evaluated.

(t) Changes in presentation

Consolidated statement of cash flows

"Increase (decrease) in allowance for doubtful accounts," which was included in "other" under "cash flows from operating activities" for the year ended March 31, 2017, has been presented separately from the year ended March 31, 2018, since the significance of the amount has increased. To reflect this change in the method of presentation, the amount in the consolidated financial statements for the year ended March 31, 2017 has been reclassified.
As a result, ¥(681) million presented in "other" under "cash flows from operating activities" in the consolidated statement of cash flows for the year ended March 31, 2017 has been reclassified to ¥(15) million of "increase (decrease) in allowance for doubtful accounts" and ¥(665) million of "other."

(u) Additional information

Stock Remuneration Plan for Directors

The Company has introduced a stock remuneration plan for directors of the Company (excluding outside directors) and executive officers who have entered into an engagement agreement with the Company (excluding overseas residents, hereinafter “Directors, etc.”), in order to raise the incentive to contribute to improving the Company’s medium- to long-term business performance and to increasing enterprise value.

(1) Overview

The Company entrusts money equivalent to remuneration of Directors, etc. The Company’s shares will be acquired using the entrusted money and the Company’s shares and the cash equivalent of the conversion value of the Company’s shares will be delivered and paid to Directors, etc., based on his or her position and the degree of accomplishment of business performance. Directors, etc., are eligible to receive the Company’s shares and the cash equivalent of the conversion value of the Company’s shares, in principle after retiring from the position of Director, etc. In order to maintain neutrality toward management of the Company, the voting rights of the Company’s shares in the trust may not be exercised during the trust period.

(2) The Company’s shares in the trust

The Company’s shares in the trust were recorded as treasury shares in shareholders’ equity on the consolidated balance sheets with the carrying value in the trust (excluding ancillary expenses). The carrying value and number of treasury shares in the trust were ¥484 million ($4,562 thousand) and 292,700 shares as of March 31, 2018 and ¥495 million and 299,100 shares as of March 31, 2017, respectively.

Accounting Treatment of Retirement Benefits

Following the enforcement of the Defined-Benefit Corporate Pension Act, the Company received approval from the Minister of Health, Labour and Welfare on April 1, 2016 for the waiver of future payment obligations and on May 1, 2017 for the return of the benefit obligations related to past employee service for a substitutional portion of the USHIO INC. welfare pension fund, of which the Company was a member. The impact on the consolidated statement of income for the year ended March 31, 2018 was ¥6,024 million ($56,709 thousand), which was presented in “other income (expenses).”

2. U.S. Dollar Amounts

For the readers’ convenience, the accompanying consolidated financial statements with respect to the year ended March 31, 2018 have been presented in U.S. dollars by translating all yen amounts at ¥106.24 = U.S. $1.00, the exchange rate prevailing on March 31, 2018. 12. Financial Instruments

(1) The Group's policy to manage financial instruments

a. Basic policy on treating financial instruments

The Group invests floating money and funds reserved for future business expansion mainly in highly safe financial assets, according to the Group's cash management plan. Financing instruments are determined based upon the use of funds and financing environment. The Group utilizes derivative transactions only to avoid foreign exchange rate fluctuation risk and interest rate fluctuation risk, and does not use them for trading or speculative purposes.

b. The nature and risk of financial instruments

Notes and accounts receivable – trade, which are operating receivables, are exposed to customer credit risk. Operating receivables denominated in foreign currencies are also exposed to foreign exchange risk which is hedged by using forward foreign exchange contracts.

Securities and investment securities consist mainly of equity securities issued by companies with a business relationship and marketable equity or bond securities held for the purpose of short-term investment of floating money and reserved funds. Investments in money held in trust is also held for the purpose of investment of reserved funds. These investments are exposed to market risk. A part of securities, investment securities, and investments in money held in trust are denominated in foreign currency, and they are exposed to foreign exchange risk; however, such risk is hedged by using forward foreign exchange contracts.

Notes and accounts payable – trade, which are operating payables, are mostly due within one year. Some of them are denominated in foreign currencies and exposed to foreign exchange risk; however, such risk is hedged by using forward foreign exchange contracts.

Short-term and long-term loans payable, which are made to obtain working capital, are mostly due within three years after the end of the current fiscal year. Floating-rate loans payable are exposed to interest rate risk. Certain long-term floating-rate loans payable are hedged by using interest rate swaps.

As for derivative transactions, forward foreign exchange contracts and currency swaps are entered into for the purpose of hedging foreign exchange risk deriving from operating receivables and payables denominated in foreign currencies, loans payable denominated in foreign currencies and securities denominated in foreign currencies. In addition, interest rate swaps are entered into for the purpose of hedging interest rate fluctuation risk deriving from interest payments for loans payable.

c. Risk management structure regarding financial instruments

Credit risk — The Company and its consolidated subsidiaries manage the customer credit risk for operating receivables in accordance with the internal regulations for credit exposure management as follows: the creditability of each customer is reviewed by monitoring the status of each customer on a daily and continuous basis; the due dates and balances are managed for each customer; and the credit line is periodically examined and reviewed.
The credit risk associated with bond securities is immaterial since the Group invests in bond securities with high credit ratings.
Derivative transactions are entered into only with highly rated financial institutions in order to mitigate counterparty risk.
As of the fiscal year-end, the maximum credit risk amount is presented as the consolidated balance sheet amounts of financial assets that are exposed to credit risk.

Market risk — The Company and some consolidated subsidiaries utilize forward foreign exchange contracts and currency swaps for foreign exchange risk identified by currency and by month in relation to operating receivables and payables denominated in foreign currencies, loans payable denominated in foreign currencies and securities denominated in foreign currencies in accordance with the internal rules for market risk management.
For securities and investment securities, market prices and the financial position of the issuers are periodically monitored and reported to directors in charge in accordance with the internal rules for market risk management. In addition, the holding status of shares issued by companies with business relationships is continuously reviewed in consideration of the relationships with those companies.
Derivative transactions are reported to directors in charge on a daily basis as well as to the Board of Directors in accordance with the internal rules for derivative transactions that define the authorization policy and limits of transactions. Consolidated subsidiaries have the internal rules equivalent to the rules of the Company,

Liquidity risk — Liquidity risk of the Company and its consolidated subsidiaries is managed by the Finance and Treasury Departments, preparing and updating the cash management plan based upon reports from each department as well as by maintaining certain liquidity.

The method of fair value measurement is described as follows:

Assets

(1) Cash and deposits and (2) Notes and accounts receivable – trade

The fair value of these accounts approximates their book value because they are settled in a short period of time. Thus, the book value is presented as their fair value.

(3) Securities and investment securities

The fair value of equity securities is based on market prices at the stock exchange, and that of bond securities is obtained from financial institutions.

(4) Investments in money held in trust

The fair value is based upon the price obtained from financial institutions.

Liabilities

(1) Notes and accounts payable – trade and (2) Short-term loans payable

The fair value of these accounts approximates their book value because they are settled in a short period of time. Thus, the book value is presented as their fair value.

(3) Current portion of long-term loans payable and (4) Long-term loans payable

The fair value of long-term loans payable is measured by discounting the total of principal and interest at an assumed rate for similar new borrowings.

Derivative transactions

The fair value is measured based upon the prices obtained from financial institutions.

As of March 31, 2018 and 2017, the consolidated balance sheet includes the following financial instruments whose fair values cannot be reliably determined:

15. Retirement Benefit Plans

(1) Overview of retirement benefit plan adopted by the Company

To prepare for the payment of employees' retirement benefits, the Company and its consolidated subsidiaries adopted funded and unfunded defined benefit plans as well as a defined contribution plan.

Under the defined benefit corporate pension plans, all of which are funded, the Company provides lump-sum or pension benefits based on salaries and length of service. In addition, retirement benefit trusts are set up for said corporate pension plans of the Company.

Under the lump-sum retirement benefit plans, which are principally unfunded and partially funded as a result of the setup of retirement benefit trusts, the Company provides lump-sum benefits based on salaries and length of service.

Under the defined benefit corporate pension plans and the lump-sum retirement benefit plans for certain consolidated subsidiaries, net defined benefit liability and retirement benefit expenses are calculated by the simplified method.

The Company received approval from the Minister of Health, Labour and Welfare on April 1, 2016 for the waiver of future payment obligations and on May 1, 2017 for the return of the benefit obligations related to past employee service for a substitutional portion of the welfare pension fund.

20. Segment Information

(1) Summary of reportable segments

The Company defines a reportable segment as a component of the Company for which discrete financial information is available and whose operating results are regularly reviewed by the Board of Directors to assess its business performance and make decisions about resources to be allocated to the segment.
The Company has a division system based on product type and similarity in sales market, etc., and each division develops and implements comprehensive domestic and overseas strategies for its development, manufacturing and sales of products and service, and engages in its business activities globally.
Thus, reportable segments of the Company are divided into two categories based on product type and sales market.
"Light sources business" conducts manufacturing and sales of halogen lamps and discharge lamps, etc.
"Equipment business" conducts manufacturing and sales of visual image equipment and optical equipment, etc.

(2) The basis of measurement of net sales, income or loss, assets, liabilities, and other items by the reportable segment is generally consistent with the significant accounting policies of the Group. Segment income presents the operating income of the segment. Intersegment sales and transfers are recognized based on the market price.
